

May 10, 2013

Dear Cayce Place Residents,

The Metropolitan Development and Housing Agency (MDHA) kicked off the Envision Cayce planning effort on March 14, 2013. Thank you to those of you who attended the meetings! As a reminder, MDHA's planning process will create a plan to redevelop the Cayce Place housing development and surrounding neighborhood.

It is important that we hear from all current Cayce Place households. Your input will make sure your needs are represented in the plan. To gather your feedback, the MDHA planning team will conduct a survey of Cayce Place residents. The survey will collect opinions regarding the quality of housing and life at Cayce Place, the services and amenities that are needed, and your housing preferences.

Surveying will take place during **May through July 2013**. Surveys will be conducted by two-person teams who will knock on the door of each unit at Cayce Place. The survey will take about 30 minutes. All surveyors will have ID badges. If you would like to schedule a specific time to conduct the survey, please contact Kaitlin Dastugue at 615.252.8420.

Your responses to the survey will remain confidential. We will not link your responses to your name. Completing this survey has no effect on any housing or other assistance you may receive now or in the future.

We hope that you will participate in this effort to help improve the quality of life for Cayce Place residents. If you want additional information regarding the Envision Cayce resident survey, please contact Kaitlin Dastugue at 615.252.8420. More information about the Envision Cayce planning effort can be found at: <http://www.nashville-mdha.org/cayce.php>.

Our sincerest thanks,

James Thiltgen, Interim Executive Director
