Guide to the MDHA Annual Report on Tax Increment Financing

For the large majority of the TIF loans outstanding, the presentation format is rather straightforward. The report depicts by column:

1. The name of the project assisted by the loan as well as the source of the debt service;
2. The principal balance as of 9/30/2016;
3. The current interest rate;
4. The loan maturity (as stated in the loan documents);
5. The year the loan was originally made;
6. The tax increment generated by the property in the last year; and
7. The amount of that tax increment applied to debt service on that loan

However, there are several other loans which may require some further explanation:

1. For the Omni Hotel/Country Music Hall of Fame ("Omni/CMHF") loan
 - a. No tax increment is being generated by the assisted projects themselves;
 - b. Debt service is being carried by increment generated from 18 other properties on which prior TIF loans have been repaid or which never had a TIF loan; and
 - c. If certain debt service coverage covenants are met each year, the lender returns 5% of the annual tax increment back to MDHA to be used for administrative functions.
2. For the Sports Authority Ballpark loan;
 - a. No tax increment is generated by the Ballpark itself;
 - b. Debt service is being carried by 12 properties in the Phillips-Jackson Redevelopment District on which prior TIF loans had been repaid; and
 - c. Payments are being made to the Metro Sports Authority as the lender.
3. For the Regions Ballpark loan:
 - a. Again, no tax increment is generated by the Ballpark itself;
 - b. Debt service is being carried by 4 properties in the Phillips-Jackson Redevelopment District whose remaining debt was refinanced and incorporated within the new loan; and
 - c. If certain debt service coverage covenants are met each year, the lender returns 5% of the annual tax increment back to MDHA to be used for administrative functions.

The 5% allowance for administrative functions from the Omni/CMHF and Regions Ballpark loans and the tax increment generated by the handful of properties which are not pledged to specific

TIF loans is available to cover MDHA's administrative expenses. In prior years, when such uncommitted funds exceeded MDHA's administrative expense needs, the excess was used to prepay outstanding TIF loans.

After the 3 pages describing each of the current tax increment loans, we have provided a listing by development district and by project within each district of each parcel on which MDHA received tax increment revenues. This listing reflects for each parcel:

1. The parcel number;
2. The property address;
3. The assessed value;
4. The 2015 taxes paid;
5. The base year taxes (i.e., the taxes retained by the Metro Government);
6. The tax increment (taxes paid less the base-year taxes); and
7. The date the taxes were received by the Metropolitan Trustee
